- When a student has both AP and CLEP credit, AP is counted first and is considered as course work when evaluating General Education requirements. In addition, if college credit has been awarded and duplicates the AP course work, the AP credit will be reduced by the amount of credit previously earned.
- When determining General Education requirements, the entire area is waived with two Intellectual Exploration (IE) courses earned in one General Education area.
- A student must be a matriculated student at the University of Utah to have AP credit recorded. AP scores and General Education waivers are evaluated according to the current policy at the time the request is made for an evaluation.
