---	--------------------

Graduate students must only prove they have funding for 9 credit hours per semester in order for the University of Utah to issue an I-20. Some graduate departments have higher credit hour requirements and tuition rates. The following departments have different tuition rates and fees associated with them. Please check with your department for current tuition rates and fees. You may also check current tuition rates at:

* Your actual expenses may be higher or lower than this estimate depending on your personal spending habits.

** International students pay non-resident tuition rates at the University of Utah. The estimated reflect the minimum amount required for issuing forms needed for the visa application process. Amounts are subject to change at any time.

*** Any person requiring a student visa must provide proof of funding greater than or equal to the annual estimated cost. If a student cannot provide a personal bank statement showing the required amount, the student must also have his or her sponsor submit a signed letter or affidavit of support indicating the sponsor's intent to financially support the student.
